

## Class B Reporting Document

**Activity Category:** Integration of a New Clinical Practice Technique

**Description:** Integration of a new clinical practice technique that has become available within the past five years and was not included in the nurse anesthetist's primary nurse anesthesia education.

**Value:** Integration of one new clinical practice technique = 3 Class B credits

**Required/Recommended Audit Documentation and/or Information:**

- Contact email for employer/supervisor capable of verifying integration of new clinical practice technique
- Evidence of continuing education specific to new practice technique
- List of reference material reviewed prior to use of the new technique
- List of return demonstrations prior to use with patients
- Number of cases performed using the new technique
- Written description of how the new technique will be incorporated into the nurse anesthetist's practice

Use the box below to document any of the above information. Save this document on your computer, then attached any additional pertinent items at the time of submission.
